**DESCRIPTION**

The Community Solutions SLS920 loudspeaker is a high output, high sensitivity, horn-loaded, three-way, full-range loudspeaker system with an integral one-piece fiberglass baffle of Wavefront Coherent™ design. It provides high intelligibility voice projection and musical reinforcement in a very compact package. Engineered for use in portable or permanent installations, the loudspeaker enclosure is constructed of void-free, heavily braced Baltic plywood with internal steel bracing connected to threaded 3/8 in. nuts which provide robust suspension points for vertical or horizontal mounting. The system may be used in passive mode or switched for bi-amplification. Available in black or white with white grille cloth, with or without handles. Five year limited warranty. Use with Community SBS Series loudspeakers. Electronic speaker controller required.

**OPTIONS:**
- SLS920 = Black paint with handles, no grille cloth.
- SLS920WHT = White paint, no handles, white grille cloth
