DESCRIPTION
The Community WET2V8 loudspeaker is a two full-range loudspeaker system designed to provide high quality music and voice reproduction in applications requiring extreme weather-resistance in a compact, low-profile package. Engineered for use in permanent installations, the loudspeaker enclosure and faceplate are each constructed as one piece of hand-laminated fiberglass. The WET2V8 has a unique asymmetrical HF dispersion pattern. Vertically it is designed to project from 0° on axis to over 75° downward. The horizontal dispersions varies from 70° on axis to 120° virtually underneath the speaker. This can provide more uniform HF coverage such as for the typical underbalcony stadium fill application. The LF cones are specially treated for weather resistance. All drivers are Ferrofluid-cooled. PowerSense Protection circuitry protects against excessive power. Five year limited warranty.

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The loudspeaker system shall be a two-way, full range, asymmetrical weather-resistant design with two 8 in. weather treated low frequency woofers on an integral fiberglass waveguide and one 1 in. exit high frequency driver with a titanium diaphragm mounted on an integral high frequency fiberglass horn. Drivers shall be connected to an integral crossover with crossover frequency of 2 kHz and integral over-current protection circuitry using high positive current coefficient resistors. The input connection shall be one 4 ft (1.2m) SJOW #1 6 gauge cable with stripped ends. The loudspeaker enclosure shall be of molded reinforced fiberglass with a 16 gauge perforated steel grille backed by open cell foam and a 100 x 100 wire sq. in. stainless steel mesh. There shall be two ½ - 13 rigging points. The system shall have an amplitude response of 80 Hz - 16 kHz (+/- 4 dB), input capability of 28 volts RMS, 95 dB sensitivity at one meter / 2 V / 4 ohms nominal impedance. The nominal dispersion shall be 70° H x 75° V from 1.6 kHz - 8 kHz. The loudspeaker shall be 9.5 in. (241 mm) H x 26.5 in. (673 mm) W x 14 in. (356 mm) D and weigh 33.5 lb. (17.2 kg.).
